

WIRE MANAGEMENT MADE INSANELY EASY

ULTRA RAPID, LOW LABOR, LOW COST

100% Universal for all Modules

25 Year Warranty

No Tools Required

Tenset™ solar wire management system is the first wire management system, based on an advanced material science tensioning mechanism that can be incorporated as part of the module, under UL 1703 or as a wire securing/supporting system under UL 2703. Build in at factory level, or install in the field. Tenset™ is your rapid solution to Solar Wire Management.
