WARNING: Do not place fingers near cutting jaws when stripping cable, wire or squeezing tool; this is a pinch point which may result in injury. Tool is not insulated; only perform stripping on de-energized conductors (otherwise may result in injury or death). Do not expose tool to moisture for long period of time, as this will result in loss of performance. Do not expose tool to high heat or flames, as this will result in damage to handle coating. Should you have any questions about this tool, please contact QLine Tools customer service at 833-232-4325 or email support@qfe002.com.
